DETAILED ACTION

Response to Amendment

1. Applicant's amendments and remarks dated May 9, 2005 have been acknowledged by the Examiner.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office Action.
3. Claims 1-6 and 9-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Weigold et al. (USP 5, 397,552) in view of Natsis et al. (USP 3,617,382).

See the appropriate paragraphs of the 03/08/2005 Office Action.

Response to Arguments

4. Applicant's arguments dated 05/09/2005 have been fully considered but they are not persuasive.

The Weigold reference modified by the teaching of Natsis encompasses the system of the instant application with all the elements claimed (See the prior Office Action).

Applicant argues that the references combined do not disclose baffles with holes used for gas mixing through bifurcation. With all due respect, Examiner disagrees.

Weigold teaches baffles with holes used to enhance mixing through bifurcation (See Figures 1516; Col.12, lines 50-60). Strictly speaking, to a certain extent (depending on particular hydrodynamic conditions) the two processes (bifurcation and redirection) are inseparable. When gas is forced through the central opening 282 formed in the baffle plate 280, it inevitably undergoes bifurcation. The structure of the apparatus of Weigold modified by Natsis would necessarily permit both bifurcation and redirection. The hydrodynamic conditions which would permit such bifurcation and redirection, however, are process conditions. Process conditions are not attribute patentable weight in a claim to the apparatus.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
